| Class of the participant | ALL CLASSES | |
| No .of participants (Students and Staff) | 92 students and staff members | |

| | |
|----------------------------------|---|
| <p>History of the event</p> | <p>Eye health check-up camps have been organized in India and other countries to provide eye care services, educate people, and detect eye diseases:</p> <ul style="list-style-type: none"> • <p>HelpAge India</p> <p>In 2017, HelpAge India organized eight eye screening camps in Pantnagar, Pune, Chennai, and Noida. The camps screened 2,458 people for refractive errors, and 1,226 were prescribed glasses. 55 patients were identified for cataract surgery and received it for free.</p> |
| <p>Significance of the event</p> | <p>Eye health check-up camps are important for girls because they can help detect vision problems and eye diseases early, which can lead to better academic performance, social skills, and confidence:</p> <ul style="list-style-type: none"> • Early detection: Eye exams can help identify vision problems that might not be immediately obvious. Early detection and treatment can prevent issues from getting worse and reduce the risk of permanent vision loss. • Academic performance: Students with good vision are more likely to do well in school. • Social skills and confidence: Clear vision can help children engage with peers and improve their social connections. • Quality of life: Correcting vision can improve the quality of daily life. • Access to services: Eye camps can help increase access to services, especially in remote areas. |
| <p>Outcomes of the event</p> | <p>Eye health checkup camps can have many positive outcomes, including:</p> <ul style="list-style-type: none"> • Improved access to eye care: Eye camps provide eye care services to underserved populations. • Early detection and treatment: Eye camps help patients get early treatment for eye conditions. • Enhanced vision: Eye camps can help patients improve their vision. • Increased awareness: Eye camps raise awareness about eye health and the importance of regular eye exams. |
